

MICROCHIP REPORT

The American Saddlebred Registry will record microchip numbers in the database at no charge upon receipt of this properly completed form, along with photos of each horse*.

The microchip number will automatically appear on the horse's registration certificate that is printed for any reason, such as a transfer of ownership.

If you wish for your registration certificate to reflect the microchip number immediately, you may include the original certificate along with this form, photos, and a \$25 correction fee per horse made payable to ASR.

***NOTE: Photos (front, rear, each side) are required for each registered horse for which a microchip number is being submitted. The American Saddlebred Registry recommends that you have a licensed veterinarian implant the microchip.**
