## Horse Search

ASHA new website is dynamically generated, where the content is frequently changing (as changes are being made to any record in the database), and it is automatically being displayed on the website. When a web server receives a request, it hands the page to the code engine, it then queries the database and builds the web page output to send back to the browser with results. Therefore, the website does not save these results, as each request is freshly generated upon request.

The searches on our website offer customized information with interactive elements, such as search criteria to filter the information specifically to your needs.

You can pull up the Horse Search from various locations on our website, use the Top Navigation Bar and click on Registry and then Horse Search. You can also find the Horse Search using the Side Navigation by clicking on the Search and from the drop down menu click on Search Horses.

### HELPFUL INFORMATION:

- The initial step of the horse search is to display the results of matches in our database. The list will provide the following:
  - **Listings of horses by current foal date**
  - **Registration Number + Sex**
  - **Horse Information:**
    - Name, registration # + sex and Current Owner(s)
    - Color
    - DNA, and
    - Markings
  - **Deceased:** yes or no
- **The search removes spaces, dashes, apostrophes, commas and periods.**
- If there are a lot of horses to display, the results will then be displayed on several pages, listing 10, 50, 100, or 500 on a page. You can choose how many to display on a page by selecting the number from the drop down menu for “# of horses to display:” field.
- Click on the Registration number of the horse to view the details of the horse.

### SEARCH BY NAME, OWNER OR BREEDER:

For better results, the name of the owner or the breeder is split by first name (or farm name) and last name. We no longer enter a long string of characters in a field in the database to store the owner or a

4083 Iron Works Parkway  
Lexington, KY 40511  
859-259-2742 | Fax: 859-259-1628

breeder for a horse. Each name is stored by first and last name, or by name if it is a farm, organization, barn, etc. Use the first few letters of a name if you are not sure how to spell the names for better output.

**1- Search by Ownership:**

#### **POP-UP BLOCKER:**

Pop-ups must be allowed in your web browser for asha.net site to display competition records and other important content. For example, if you are trying to download the competition records for a horse, and nothing happens when you click on “GET PDF of Results”, that means that the site is being blocked from pop-ups. By default, all internet browsers do not allow any sites to use pop-ups for security reasons.

Here are some steps that you need to take to allow pop-ups on “asha.net”.

#### **Google Chrome**

4083 Iron Works Parkway  
Lexington, KY 40511  
859-259-2742 | Fax: 859-259-1628

- 1- Click on the “” icon located in front of the URL on the address bar.

- 2- Locate Pop-ups, and select “Always allow on this site”.

- 3- Reload your page and try clicking again on the “Get PDF of Results”

You can also use the following steps to allow popups in Chrome

- 1- Click on **Chrome Menu** on the browser toolbar, then select Settings.

- 2- Scroll down and click “**Show advanced settings**”
- 3- In the “Privacy” section, click the “**Content settings**” button.
- 4- Scroll down to the “Pop-ups” section, click “**Manage exceptions**”.
- 5- In the “**Hostname pattern**”, type [https://www.asha.net], then press **Done** to save changes.

4083 Iron Works Parkway  
Lexington, KY 40511  
859-259-2742 | Fax: 859-259-1628

- 6- Reload the page and **try clicking on the “Get PDF of Results”**.

### Internet Explorer

If you are using Internet Explorer, a message will pop up to enable Pop-ups.

- 1- Click on **“Options for this site”**.
- 2- Select **“Always allow”** from the menu.

Another way to turn on Pop-up Blocker on IE

- 1- Open Internet Explorer, select the Tools button, and then select Internet Options.

- 2- On the privacy tab, under Pop-up Blocker, select the Turn on Pop-up Blocker check box, and then select OK.
